Biography Scott Lundgren
USCG Technical Advisor –
Office of Marine Environmental
Response Policy

Mr. Scott Lundgren
Technical Advisor, Office of Marine Environmental Response Policy (CG-MER-t)
U.S. Coast Guard Headquarters

Mr. Scott Lundgren is the technical advisor and deputy chief of the Office of Marine Environmental Response Policy at Coast Guard Headquarters in Washington, D.C. He oversees all staff program management for Coast Guard planning and preparedness for oil spills and hazardous substance pollution incidents in the coastal zone to minimize threats to public safety, the marine environment, and maritime commerce through development and implementation of national policy for preparedness and response, interpretation of laws and regulations, and provision of field guidance for execution. Mr. Lundgren also serves as the principal international representative on Marine Environmental Response working groups, including the International Maritime Organization's International Convention on Oil Pollution Preparedness, Response and Co-operation (OPRC) technical working group and the Arctic Council's Emergency Prevention, Preparedness, and Response working group. He previously served as chief of the Coast Guard's Incident Management and Cross Contingency Division overseeing policy for incident management, contingency planning, FEMA/National Response Framework integration, and Incident Command System implementation. He brings 21 years of Coast Guard experience in environmental and disaster preparedness and response. Scott holds master's degrees in Environmental Management from Harvard and in National Security and Strategic Studies from the Naval War College. Mr. Lundgren, his wife, and two children reside in Fairfax, Virginia.
